

The World Upside-Down

By Ved Ajit Kumar

To me, an upside-down world is simply a crazy idea. And it would have continued like that had this not happened : I woke up one day to a surprise. I was sleeping on the roof! My bed was on the floor. The world was upside down! I panicked. What should I do? This was terrible. Then I calmed myself and went to the bathroom only to find the commode on the roof and spilling its contents out. I tried to brush but even the laws of gravity were upside down. I went to the kitchen to have a bowl of cereal, but, the contents stayed inside. This world was getting really weird. I finally decided that this had to be a dream so I would go back to bed and wake up from it. The next morning the world was normal again but never in my life have I forgotten that dream.

THE END
