

STARS ON EARTH

Stars, stars
Light up the night
They shimmer and shine
Yellow and white!

So what ,if they are too far to catch
We do have stars on earth to match !

Like a soft and light feather
That can be found in any weather !

Like a colourful butterfly
Sitting on a flower not too high !

Like a beautiful ballerina
Dancing happily in her arena !

Like the keys on my piano
When I play do -re -mi with Ms Namo !

Like a bunch of sea -shells
Ringing in my ears like bells !

Like those soft bubbles
They show me rainbow in little puddles!

These stars I can easily touch
They make me happy so much !
