

~~2020

And the world as I knew it, has gone

I found myself in a giant bubble about to burst.

The smiles of the familiar faces now obscured; we all wear  
a mask to hide our pain.

The laughter & play of the children has now turned into  
zombie like stares.

The lunch and coffee meets with my friends, once longed  
for is now unsafe.

Everything appears normal on the surface as we all try to  
get back to how things were, then why do I hear these  
silent screams.

Is it a giant cleanse of our thought processes and conditioning?

Are we all metamorphosing and getting ready to bloom once again?

Is there a glimmer of a new world and a new way of life?

Or is it just me- a hopeless romantic and an eternal optimist.
