

## LIFE AFTER 2020

After this whole Coronavirus thing is done,  
Life after 2020 will be so much fun!  
The Gol-Gappa stalls will take their place,  
There won't be a single Coronavirus case.  
School's will re-open friends will meet,  
Everything will take its seat.  
There will be so much to talk about,  
"You know I grew tall; my sister grew stout!"  
That every day's video-call,  
Will be of no use at all!  
The world will be full of love and care.  
I shall finally take my cycle for a repair!  
Business will go back to where it was,  
The doctors will get their deserved applause.  
Those hectic mornings, when we couldn't find our  
shoe,  
Will come back again! Phew!  
But something won't come back, I'll miss it in tons,  
C'mon! It's the quality time we spent with our loved  
ones.  
Nobody will be jobless anymore,  
We won't have the time to get bored!  
The heavy rains, the over flowed dam,  
The typical "Mumbai traffic jam!"  
Eating those sour "Imli's" from the tree,  
Breathing without a mask, so free!  
Lockdown would have been over, Such a relief!  
Those piled up projects will have to be written in  
brief.  
Oh God! Take away 2020, it has a virus in it!  
If you do so, everyone's minds will be lit!  
I hope this situation is over with,  
This should be reality, not a myth!
